Real World Experts, Time Tested Advice

Creative Breakthroughs, Inc. provides custom consulting to a wide-range of companies and organizations with a business-first approach that focuses on delivering tangible and measurable benefits.

With a rare combination of business savvy and technological skills, our consultants help you to develop a better understanding of your IT goals and a clear path to achieving them.

From IT consulting to business process and technology services, our consulting services combine proven, disciplined approaches with real-world experience.

Consulting Services

Assessments

We have a variety of customized assessments for every stage of information availability planning. Our assessments are tailored to meet the specific needs of your organization.

Our services include:

- Network Discovery
- Identity Management Readiness
- Technology & Security Roadmaps
- Penetration Testing
- Social Engineering
- Vulnerability Assessments

Business Impact Analysis

We identify functions and processes most essential to your day-to-day operations, and analyze the financial and operational impact of losing critical network resources. From our methodology, we then arm you with the information you need to create a comprehensive disaster recovery plan.

Disaster Recovery Planning

Disaster recovery planning is a vital activity, however the creation and maintenance of a sound disaster recovery plan is a complex undertaking.

We help you develop strategies that minimize the negative impact of unplanned network interruptions.

Identity Management

With an ever increasing number of users on your network needing access to a variety of software applications, identity management is a critical component of any comprehensive information security strategy.

We help you find the right balance between infrastructure accessibility and security.

Regulatory Compliance

We conduct compliance assessments, reviews and audits, and develop the policies, procedures, plans or necessary training for the most effective compliance program.

- Health Insurance Portability and Accountability Act (HIPAA)
- Gramm-Leach-Bliley Act (GLBA)
- Sarbanes Oxley Act (SOX)
- ISO17799/ISO27001
